What makes our club special?

Participating in the SLAM/InterACT club is an exciting opportunity. To be a member, you are taking on being a representative of our caring school community inside and outside of our school building. Members must apply and go through an interview process. All accepted students start the year building community and information sharing at a weekend overnight retreat. Weekly meetings are held throughout the year where the advisor leads the executive board and the executive board members lead the club members. Members are broken into committees that work on projects throughout the year.
